

I've become aware that circumstances regarding LPFM stations may be jeopardizing the broadcasting of stations like K-LOVE. This station serves the community in a wonderful way! It provides inspiring, family-safe radio. It is in the public interest to keep K-LOVE on the air, both for impressionable kids as well as those in need of encouragement. If it were replaced by an LPFM station, the effect on my local community could be quite detrimental in that what we listen to so much affects our thoughts. Please help preserve stations like K-LOVE by allowing FM translators to stay on the air.
